feel good, feel great

The impact of Nancy's fist stuns her.

Dark red fluid gushes out of her nostrils, trickling heavy and warm onto her brown fingertips and the thick, leathered material of Kali's motorcycle gloves.

She reels onto the ground, moaning out, staring up from a half-kneel and pressing her wrist underneath her aching, bruising nose. A disco ball glitters high, high above the Wheeler's living room, surrounded by an array of teal, magenta, custard-yellow and grey balloons with little, dangly silver-ties.

"Good," Kali mutters, flashing a quick, blood-tinged smile as Nancy gleefully blows a kiss, fixing her high ponytail. "*Do it again.*"

Stranger Things isn't mine. WE GOTTA GET BACK TO SOME KALANCY LOVIN' HOURS. I'M VOLUNTEERING. I ended up with "Balloons" for the official Femslash February prompt scheduled and "Love At First Punch" as my other challenge trope and honestly I just wanted to try a drabble. Hope yall like! Any comments/thoughts appreciated!
